

SDG 12 – Responsible Consumption and Production

Sumgayit State University promotes responsible consumption and efficient use of resources through campus management practices, awareness initiatives, and operational improvements. The university focuses on optimizing resource use and encouraging sustainable behaviors within the academic community.

Key Results (2025)

- **Total waste generated annually (kg):** 633.6
 - **Number of recycling initiatives:** 5
 - **Awareness activities on sustainability or resource use:** 19
 - **Number of recycling collection points on campus:** 7
 - **Waste reduction target:** 40%
-

Programs and Services

● **Resource Management**

SSU manages the use of resources such as energy, water, and materials across campus facilities, aiming to improve efficiency and reduce waste.

● **Waste Management Practices**

Basic waste management systems are maintained to ensure proper handling and disposal of materials within the university.

● **Awareness and Responsible Behavior**

The university encourages responsible consumption through awareness activities and integration with broader sustainability and health initiatives.

● **Operational Efficiency**

Administrative and operational processes support efficient use of resources across academic and support services.

Impact

Through its focus on efficient resource use and awareness, SSU contributes to promoting responsible consumption within its campus environment. These efforts support long-term sustainability and institutional efficiency.

Institutional Support

- Facilities and infrastructure management
 - Administrative oversight of resource use
 - Integration with sustainability and operational systems
 - Institutional commitment to efficiency and responsible practices
-

Future Priorities

- Improve monitoring of resource consumption
 - Strengthen waste management systems
 - Increase awareness of sustainable practices
 - Develop measurable indicators for resource efficiency
-

Evidence and Reporting

This page is based on institutional data collected for the 2025 reporting period and supports Sumgayit State University's Sustainability Reporting aligned with the Sustainable Development Goals (SDGs).
