

The meeting focused on aligning SSU's academic and research priorities with institutional development goals.

- Strong emphasis on research optimization, especially applied research and industry collaboration.
- Focus on student quality and admissions, including support for high-performing entrants.
- Confirmation of academic readiness for the new year (teaching, infrastructure, dormitory).
- Approval of a wide range of doctoral topics, academic programs, and updated curricula, showing active academic growth and program diversity.
- Overall, the decisions support messaging around research impact, employability, student support, and academic modernization.
